

HARLEY STREET  
DENTAL STUDIO

## *Dental bridges from Harley Street Dental Studio*

---

### Missing teeth? The 5 key questions to ask yourself

At Harley Street Dental Studio, we've used dental bridges to treat hundreds of patients with one or more missing teeth.

Could we help you too?

To find out, **please answer the following questions.**

1. Would you like to replace your missing tooth or teeth?
2. Would you like the replacements to look completely natural?
3. Would you like your teeth to be fixed sooner rather than later?
4. Would you like your surrounding teeth to be stronger as a result?
5. Are you worried about the cost of achieving all this?

If you answered "yes" to all the questions, we can probably help you.

There's more good news for you...

... bridges are more affordable than other missing teeth treatments.

And your teeth can be fixed within weeks.

DENTAL STUDIO

**The crowns attach to the teeth on either side of the gap. They create a bridge.**

And the false tooth fills the gap.

Bridges can be made from porcelain, metal or a combination of the two.

With dental porcelain, your new teeth can be made to exactly match the colour and shade of your existing teeth.

They seamlessly blend in - you can keep them secret.

This treatment also eases the strain on your surrounding teeth.

It can help to stop decay and gum disease.

And you'll find eating a lot easier.

## Happy patients

Our dentists at Harley Street Dental Studio have given extra confidence to hundreds of patients like you.

They tell us they've stopped covering their mouths when they smile. Instead, they show off their teeth.

Our senior dentists each have over 20 years of experience.

Many of our happy patients have been with Harley Street Dental Studio for years.
