Dental Implants

Dental implants from Harley Street Dental Studio

3 ways dental implants can change your life

If you feel self-conscious about your missing tooth or teeth you can stop worrying now.

Dental implants from Harley Street Dental Studio are the answer.

Your dentist will gently place a titanium implant under your gum to act as the root of a tooth.

A new tooth - made to match the colour of your teeth - is then securely placed on the implant giving you a great looking new smile.

It's a long term solution to your teeth problems.

HARLEY STREET

DENTAL STUDIO

How can this change your life?

1. You can get rid of low self-esteem and embarrassment caused by your missing tooth or teeth
2. You can find fresh confidence with your new smile
3. Eating will become more pleasurable (many of our implant patients say their new crown works as well as a real tooth)

And no one will know you have an implant.

‘Gold standard’

At Harley Street Dental Studio, we’ve put a spring into the step of hundreds of people like you.

Dentists say implants are the “gold standard” for replacing missing teeth.

Our patients often have more than one implant.

HARLEY STREET DENTAL STUDIO

How does it work?

It begins with the placement of your implant(s) which act as the "root" of your new tooth.

This is left to heal for a few weeks to give the jaw and implant time to integrate.

Then it's time to fit your bespoke new ceramic crown(s).

From start to finish the treatment takes just a few months.

Why Harley Street Dental Studio?

Our patients regularly thank us for boosting their confidence.

They've stopped covering their mouths with their hands. They smile more.

Happy patients

Our senior dentists have practised for over 20 years.

Many of our happy patients have been with Harley Street Dental Studio for years.

They deserve the best dental treatment and so do you.

Our dentists will tell you that, as with real teeth, if you look after your implant and crown, they can last for many years.
