DENTAL STUDIO

## 6 ways to get your perfect smile

---

*Smile makeovers from Harley Street Dental Studio*

### Do you feel unhappy about your teeth?

Many of us do. But now you can change things.

You can alter the shape of your teeth, the size, the position, the proportion, the colour and the lack of symmetry.

You can fix twisted teeth, stained teeth, gappy teeth and crooked teeth and your treatment plan can be tailored to suit your budget.

### Now you can start to feel good about your smile with a complete smile makeover.

At Harley Street Dental Studio, our experienced dentists are leaders in this field.

Using the latest dental technology, we'll help you to design your perfect smile.

Then we'll give you a natural-looking new smile using one or more of these six cost-effective treatments:

1. Porcelain veneers
2. Same-day veneers (also known as Bonding or Composite Veneers)
3. Virtually invisible braces
4. Dental bridges
5. Implants
6. Teeth whitening

Depending on your treatment, you can have a new smile within weeks or months.

## How do these treatments work?

**Porcelain veneers** are ultra-thin porcelain surfaces custom made to fit over the front of your existing teeth. Many celebrities have improved their teeth with this treatment.

**Same-day veneers** (also known as Bonding or Composite Veneers) give a similar effect but are more affordable and quicker - you can be treated in one visit.

With **virtually invisible braces** you can secretly straighten your teeth in months.

Dentists say **implants** are the “gold standard” for missing teeth. Our experienced dentists will place a titanium implant under your gum. This acts as a root to support your bespoke new tooth.

**Dental bridges** give a similar effect for a much lower price - and you can be finished faster.

And with **teeth whitening**, you can reverse years of staining to look - and feel - younger.

## Design your own smile

Maybe you don't like your smile but you don't know exactly why.

We'll study it using computer technology to analyse the different elements - including proportions and dimensions and work with you to design your new smile.

We can also help you if you are afraid of going to the dentist.

You can conquer your fear with dental sedation. In other words, we'll give you a little something to help you relax.

## Why Harley Street Dental Studio?

Lots of our patients have thanked us for boosting their confidence.

---

*They say they no longer try to hide their teeth in social situations.*

---

## Happy patients

Our senior dentists have over 20 years experience.

Many of our happy patients have been with Harley Street Dental Studio for years.

**You're in safe hands.**
