Veneers from Harley Street Dental Studio

3 steps to your perfect smile

Do you feel unhappy about your teeth?

Many of us do, but now you can change things.

You can alter the shape, the size, the proportion, the colour and the lack of symmetry. You can fix gappy teeth and stained teeth.

Now you can start to feel good about your teeth.

At Harley Street Dental Studio we've made hundreds of our patients feel like this. Using the latest dental technology, we can help you to design your perfect smile.

DENTAL STUDIO

Then we'll use veneers to give you natural-looking teeth.

Veneers are ultra-thin surfaces custom made – and perfectly colour matched – to fit over the front of your existing teeth.

So no one need know you've had treatment.

Many celebrities have improved their teeth with veneers – but they are more affordable than you might think.

How does it work?

We offer a variety of veneers to restore damaged, crooked or discoloured teeth. Each type of veneer has its own advantages and our skilled dentists will advise on what would be the most suitable option for you, to create the results you desire.

Veneers are a thin cover for your teeth, usually made from either porcelain or composite material, they can disguise a host of concerns and look just like natural teeth.

At Harley Street Dental Studio, our dentists are highly skilled and experienced, they work with only the best dental laboratories to produce the most exceptional quality veneers for you. This means that we can offer:

Prep-less Veneers – often, very little or absolutely no preparation of your teeth is required prior to fitting the veneers, making the process much less damaging to teeth.

Ultra-thin Veneers – making the veneer as thin as possible means that there is no need to remove large amounts of the natural tooth underneath, veneers will fit comfortably without making the teeth feel bulky.

DENTAL STUDIO

Direct Composite Veneers – these are crafted directly on to your teeth by our dentists using composite material that is skilfully matched to the shade of your teeth.

Indirect Porcelain Veneers – these veneers are crafted by skilled technicians in our carefully selected dental laboratories.

At your consultation, we will discuss the options that are best suited to your needs. Whichever type of veneers our dentists recommend for you, the results will be natural looking and create a beautiful smile.

Why Harley Street Dental Studio?

Lots of our patients have thanked us for boosting their confidence.

They say they no longer try to hide their teeth in social situations.

Happy Patients

A lot of our patients who were once reluctant, now gladly show off their brighter smile.

Our senior dentists each have over 20 years experience.

Many of our happy patients have been with Harley Street Dental Studio for years.

We know how important your treatment is to you. That's why people like you keep coming back.

HARLEY STREET
DENTAL STUDIO

You're in safe hands.

Our dentists will tell you that, as with real teeth, if you look after your veneers they can last for many years. Cleaning your veneers is as easy as cleaning your teeth.

Money well spent
